PensionOS Updates

Log

What's new in PensionOS?

2025 February: Loading bar when starting up has been changed to a green colour.

Loading icon has been added to shutdown screen.

New "decorations" added to the PensionVPN™ Setup screen.

2025: The log In screen has been significantly changed to look like a Windows 10 log in screen. Desktop Background has been changed to something better.

New Programs: PensionVPN™ has been added. Aswell as PensionOS Updates Log.

2024: Wi-Fi/Bluetooth has been added. New images in Photo Viewer has been added.

Taskbar colour has been changed from default blue to white to make the Taskbar stand out more on the desktop, as well to go along with the start menu.

Real-time date and time has been added in the bottom right (Right side of Taskbar).

Earlier from the above (Before 2024 November): Wi-Fi and right click menu

PensionOS

Help

Things you might need to know:

Programs: Programs automatically close after opening another program to save RAM from being too high and causing your PC to crash

Error Codes:

Error code **2995** is when you are trying to delete a file that cannot be recovered as it has been in the recycle bin for over 30 days.

Error code **5743** is a unique error code for each individual game that is installed on PensionOS. This typically means that the game servers have failed, lost connection or are in maintenance.
